School and Program Update
by
Neuman F. Pollack, Dean

The faculty and staff of the School of Business and Entrepreneurship have been listening to what students and alumni have to say about our programming. This is part of our on-going **Outcome Assessment** efforts in conjunction with University Strategic Planning, our Total Quality Management Project, and our preparation for Reaffirmation of Accreditation Self-Study due in 1994. As a result of these efforts we are incorporating some of the most salient suggestions into our scheduling effective with the Fall 1992 term. Naturally, all existing students will not be required to adhere to new policies and requirements. However, you will be able to participate in new offerings on an optional basis.

New students will be exposed to increased use of computers and telecommunications in the delivery of the M.B.A. and other programs. All prerequisite courses will be offered throughout our system using a computer-mediated, video instruction, and live seminar format. A one-credit Current Issues Forum will be inaugurated. All students will attend six sessions while enrolled in the program. The sessions will be scheduled once a month on campus and in cluster locations. In order to ensure commonality of presentations, we will video-tape one session per month on campus. The video-tapes will be sent to each cluster site so that the students will have an opportunity to view the presentation and have their own discussions on the topics. Dr. Bill Johnson is heading up the Current Issues Forum format and schedule. The various program directors are working with Dr. Johnson to ensure a broad coverage of topics throughout the year. Since students will have to attend six of the forums while enrolled in their master's program we will be able to have maximum flexibility in scheduling. When the details for the first year's forums is complete it will be distributed to all currently enrolled students. The addition of the Current Issues Forums will increase the number of credits for new students to 41 instead of the current 40 credits for the M.B.A. and other management programs.

We intend to offer some classes in all of our master's programs on a weekday basis to accommodate the needs of the growing number of full-time pre-professional students who are enrolled in the School of Business and Entrepreneurship. Initially, we will offer at least one course in each of the master's programs on a weekday basis in addition to the full weekend schedule. This will enable pre-professional students to complete their entire program in approximately 12 months by taking three classes during each of our four standard terms. These students will be able to interact

with our typical adult professional students in some of their classes, thereby learning from their experiences.

In addition, the pre-professional students will be able to gain some practical experience through satisfying a four credit internship requirement. Students will enroll in four one-credit internships (one during each term of the year) during which time they will be able to work in one or more companies or organizations ten to twelve hours per week and attend a monthly seminar with other students doing internships to share their experiences under the guidance of a full time internship coordinator. This internship requirement will take the place of the Productivity Improvement Workshop. Again, this change will not be imposed on students entering our programs prior to the Fall 1992 term.

Finally, a word about plans to move the School of Business and Entrepreneurship to Nova's East Campus on 9th Avenue in Fort Lauderdale. This campus currently houses the Law School. The new Law School building on the Davie campus will be completed in June 1992. Commencing with the Fall 1992 term we will schedule most of our classes at the East Campus. We will, however, continue to schedule some classes in Davie and some in Coral Springs. I will be meeting with the program directors later this spring to make some initial determinations on class scheduling for the Fall term.

For planning purposes please be aware that the Board of Trustees has set the master's programs tuition at \$300 per credit commencing with the Fall 1992 term. Our doctoral tuition will be \$375 per credit.
